

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I need and deserve. I am a long haul truckdriver and I use all of the info that I get on the XM radio plus it is nice not to have to go and search for a new radio station everytime a AM/FM station fades out that is a big safety factor for me by taking one more distraction from me
